

unqork

Unqork for Property & Casualty Insurance

Deliver insurance solutions without having to write a single line of code

In order to grow, P&C carriers must deliver innovative products and new cutting-edge digital approaches to engage customers. However, rapidly building new applications on top of legacy systems while simultaneously adapting to constant regulatory changes is just not possible with existing tools. As a result, numerous opportunities are missed in the long periods of time between product ideation and revenue generation.

Unqork is reimagining the application development process to help leading P&C carriers, including 3 of top 10 carriers, digitize customer-facing engagements; policy & claims management workflows; and rate, quote, bind, & issue processes—all without writing a single line of code.

COMPANY BASICS

Founded	2017
Founder	Gary Hoberman, Former CIO of MetLife
Employees	500+
Headquarters	New York City
Investors	CapitalG, Goldman Sachs, BlackRock, World Innovation Lab, and others
Total Funding	\$400m+
Annual Revenue Growth	300%

Example P&C Solutions

Digital Rate-Quote-Bind In only 8-to-12 weeks, build the digital underwriting infrastructure to accelerate new product deployment

Digital Distribution Expand distribution via agent-, broker-, and customer-facing portals with access to highly automated back-end processes

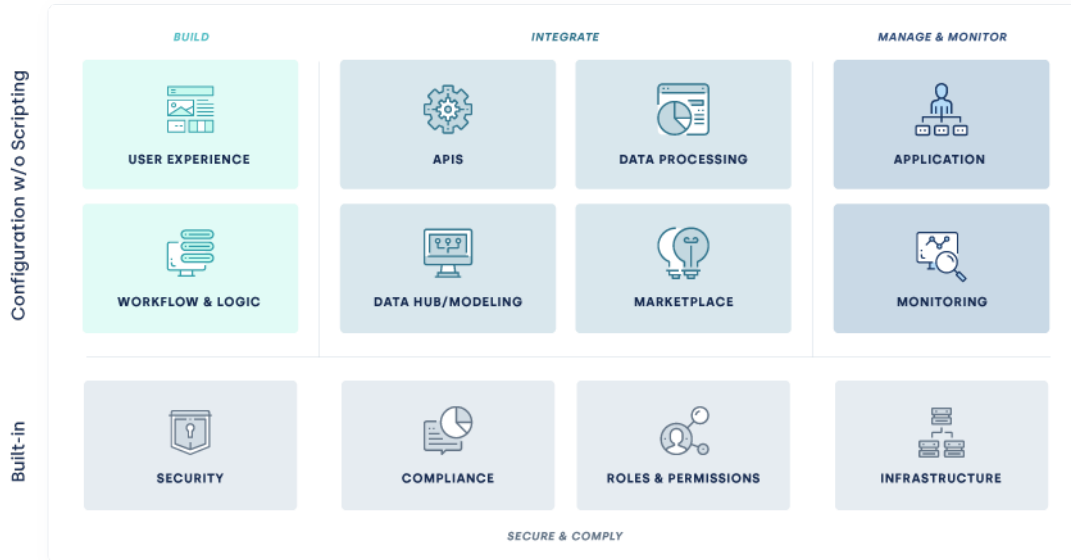

Placement Marketplace Create a robust digital front door for brokers and streamline product management across all carrier offerings

Client Onboarding Reduce costs while simultaneously enhancing the CX and reducing data errors via a fully digital, highly automated onboarding journey

Claims Administration Optimize the claims processes from FNOL to final payment via a 100% digital process end-to-end workflow

Everything you need to build enterprise quality applications without having to write a single line of code.

Unqork's commercial P&C technology ecosystem

Seamless digital orchestration: Unify disparate processes and systems with rapid integration of third-party data providers, BI connectors & internal systems (PAS, billing, rating, etc.)

Robust marketplace of accelerators: Further accelerate time to market by leveraging insurance-specific accelerators & Insurtech integrators (e.g., GroundSpeed, Carpe Data)

Modern, mobile-ready digital experiences: Deliver pixel-perfect front-end capabilities across a wide range of channels and personas

Established broker marketplace: Unqork is the Digital Placement and Policy Servicing platform for Marsh and other brokers, creating an easy path to digital connections with their carriers and trading partners

Deep insurance expertise: Unqork clients include 6 of the top 10 P&C Carriers, and 2 of the top 3 brokerages

About Unqork

Unqork is the industry pioneer no-code enterprise application platform that helps large companies build, deploy, and manage complex applications without writing a single line of code. Organizations like Goldman Sachs, Liberty Mutual, the Cities of New York and Washington, DC and Maimonides Medical Center are using Unqork's drag-and-drop interface to build enterprise applications faster, with higher quality, and lower costs than conventional approaches.
